LASH CURLER

Use the curler before applying mascara to protect the lashes. Open the eyelash curler and carefully place upper lashes between the top and bottom section of the curler. Gently squeeze handles, hold for 10 seconds and open it slowly. For more curl, repeat these steps. Regularly clean the silicone rubber pad with a tissue or replace with a new pad, if necessary. **Tip:** Enclosed comb for a perfect separation of the lashes. Also usable without comb.

Wimpernzange nur auf ungeschminkten Wimpern benutzen, um die Wimpern zu schützen. Wimpernzange öffnen und vorsichtig die oberen Wimpern zwischen den zwei Seiten der Wimpernzange platzieren. Dann mit sanftem Druck schließen, 10 Sekunden halten und langsam wieder öffnen. Für mehr Schwung einfach wiederholen. Nach Anwendung das Silikonkissen einfach mit einem Tuch reinigen oder austauschen, wenn notwendig. **Tip:** Inklusive Kamm für ein perfektes Separieren der Wimpern. Auch ohne Kamm anwendbar.

Utilizar el rizador de pestañas únicamente con las pestañas sin maquillaje, para protegerlas. Abrir el rizador de pestañas y colocar con cuidado las pestañas superiores entre los dos lados del rizador. A continuación cerrarlo ejerciendo una leve presión, aguantar durante 10 segundos y volver a abrir lentamente. Si se desea un rizo mayor, basta con repetir el proceso. Después del uso, limpiar la almohadilla de silicona con un paño o cambiarla si es necesario. **Consejo:** Incluye un peine para separar las pestañas a la perfección. También puede usarse sin el peine.

N'utiliser la pince à cils que sur les cils non maquillés afin de les protéger. Ouvrir la pince à cils et placer précautionneusement les cils supérieurs entre les deux faces de la pince. Fermer ensuite avec une légère pression, tenir la pince fermée 10 secondes et l'ouvrir lentement. Pour un effet plus recourbé, recommencer l'opération. Après l'utilisation, nettoyer le coussin en silicone avec un chiffon ou l'échanger si nécessaire. **Conseil:** peigne inclus pour séparer parfaitement les cils. S'utilise aussi sans peigne.

GR Χρησιμοποιήστε το ψαλίδι πριν από την εφαρμογή της μάσκαρας, για να προστατεύσετε τις βλεφαρίδες. Ανοίξτε το ψαλίδι για τις βλεφαρίδες και τοποθετήστε προσεκτικά τις επάνω βλεφαρίδες μεταξύ του επάνω και κάτω τμήματος του ψαλιδιού. Πιέστε απαλά τις λαβές, κρατήστε για 10 δευτερόλεπτα και ανοίξτε αργά. Για μεγαλύτερη καμπύλη, επαναλάβετε αυτά τα βήματα. Να καθαρίζετε τακτικά το ελαστικό επίθεμα σιλικόνης με ένα χαρτομάντιλο ή να το αντικαθιστάτε με ένα νέο επίθεμα, εάν είναι απαραίτητο. **Συμβουλή:** Κρατήστε κλειστό του βουρτσάκι για τέλειο διαχωρισμό των βλεφαρίδων. Επίσης, μπορεί να χρησιμοποιηθεί και χωρίς βουρτσάκι.

IT Usare il piegaciglia solo sulle ciglia struccate, in modo da proteggerle. Aprire il piegaciglia e posizionare con attenzione le ciglia superiori tra le due parti del piegaciglia. Chiuderlo esercitando una lieve pressione, tenerlo così per 10 secondi, quindi riaprirlo delicatamente. Per ciglia ancora più curve, ripetere la procedura. Dopo l'uso, pulire con un panno o sostituire il cuscinetto in silicone. **Consiglio:** con pettinino incluso, per separare le ciglia perfettamente. Utilizzabile anche senza pettinino.

NL Gebruik de wimpertang voordat u uw mascara aanbrengt om de wimpers te beschermen. Open de wimpertang en plaats de bovenwimpers zorgvuldig tussen het bovenste en onderste deel van de tang. Knijp de tang voorzichtig dicht, houd hem 10 seconden gesloten om hem vervolgens langzaam te openen. Herhaal deze stappen voor meer krul. Het siliconenkussentje regelmatig reinigen met een tissue of vervangen door een nieuwe, indien nodig. **Tip:** gebruik het bijgeleverde kammetje voor een perfecte scheiding van de wimpers. Ook te gebruiken zonder kammetje.

PT Utilizar o revirador de pestanas apenas em pestanas sem maquilhagem para as proteger. Abrir o revirador de pestanas e posicionar cuidadosamente as pestanas superiores entre as duas faces do revirador de pestanas. Em seguida, fechar com ligeira pressão, aguardar 10 segundos e voltar a abrir lentamente. Para as moldar ainda mais, repetir o processo. Após a utilização, limpar a almofada de silicone simplesmente com um pano ou substituí-la, se necessário. **Sugestão:** com um pente para uma separação perfeita das pestanas. Também utilizável sem o pente.

WASH AWAY MAKE UP REMOVER PADS

GB

Reusable make up remover pads remove even waterproof make up only with warm water and without any additional make up remover products. Wash before first use. **Use:** 1. Soak the pad with warm water. 2. Gently wipe the pad over your skin and eyes to remove make up. 3. Wash pad with soap and water after each use. 4. Allow the pad to dry and reuse. Skin will slowly get used to the micro fibres. Depending on the make-up you use the pads may discolour. This does not make the pads any less effective. Regularly wash the pads in the washing machine (60 °C). 100 % Polyester.

DE

Wiederverwendbare Make Up Entferner Pads entfernen selbst wasserfestes Make Up – nur mit warmem Wasser und ohne zusätzliche Reinigungsprodukte. Vor dem ersten Gebrauch waschen. **Anwendung:** 1. Pad mit warmem Wasser nass machen. 2. Sanft über die Haut und Augen wischen, um Make Up zu entfernen. 3. Gebrauchtes Pad mit Seife unter Wasser nach jedem Nutzen waschen. 4. Pads trocknen lassen und wiederverwenden. Die Haut gewöhnt sich langsam an die Mikrofasern. Abhängig von dem verwendeten Make-up können Verfärbungen auf den Pads zurückbleiben. Dadurch wird die Wirksamkeit der Pads nicht eingeschränkt. Pads regelmäßig in der Waschmaschine bei 60 °C waschen. 100 % Polyester.

- ES** Los discos desmaquillantes reutilizables retiran incluso el maquillaje resistente al agua solo con agua tibia y sin necesidad de desmaquillantes adicionales. Lavar antes del primer uso. **Modo de empleo:** 1. Empapa el disco con agua tibia. 2. Pasa el disco suavemente por la piel y los ojos para desmaquillarlos. 3. Lava el disco con agua y jabón después de cada uso. 4. Deja secar el disco y vuelve a utilizarlo. La piel se acostumbrará lentamente a las microfibras. Dependiendo del maquillaje que utilices, los discos pueden decolorarse. Esto no hace que los discos sean menos eficaces. Lava regularmente los discos en la lavadora (60 °C). 100% poliéster.
- FR** Les disques démaquillants réutilisables enlèvent même le maquillage waterproof uniquement avec de l'eau tiède et sans produits démaquillants supplémentaires. Laver avant la première utilisation. **Utilisation:** 1. Tremper le disque dans de l'eau tiède. 2. Passer délicatement le disque sur votre peau et vos yeux pour enlever le maquillage. 3. Laver le tampon à l'eau et au savon après chaque utilisation. 4. Laisser sécher le disque et réutiliser. La peau s'habitue lentement aux microfibras. En fonction du maquillage utilisé, les disques peuvent se décolorer. Cela ne diminue pas leur efficacité. Laver régulièrement les disques à la machine à laver (60 °C). 100 % polyester.
- GR** Επαναχρησιμοποιήσιμοι δίσκοι ντεμακιγιάζ που αφαιρούν ακόμη και το αδιάβροχο μακιγιάζ μόνο με ζεστό νερό και χωρίς πρόσθετα προϊόντα ντεμακιγιάζ. Πλύνετε πριν από την πρώτη χρήση. **Χρήση:** 1. Μουλιάστε τον δίσκο με ζεστό νερό. 2. Περάστε τον δίσκο απαλά πάνω από το δέρμα και τα μάτια σας για να αφαιρέσετε το μακιγιάζ. 3. Πλύνετε τον δίσκο με σαπούνι και νερό μετά από κάθε χρήση. 4. Αφήστε τον δίσκο να στεγνώσει και επαναχρησιμοποιήστε τον. Η επιδερμίδα σιγά-σιγά θα συνηθίσει τις μικροϊνες. Ανάλογα με το μακιγιάζ που χρησιμοποιείτε, οι δίσκοι μπορεί να αποχρωματιστούν. Αυτό δεν κάνει τους δίσκους λιγότερο αποτελεσματικούς. Πλύνετε τακτικά τους δίσκους στο πλυντήριο (60 °C). 100% Πολυεστέρας.
- IT** Dischetti struccanti riutilizzabili che eliminano anche il make-up resistente all'acqua solo con acqua calda, senza applicare ulteriori prodotti struccanti. Lavarli prima di usarli la prima volta. **Utilizzo:** 1. Immergere il dischetto in acqua calda. 2. Passare il dischetto delicatamente su pelle e occhi per struccarli. 3. Lavare il dischetto con sapone e acqua dopo ogni utilizzo. 4. Fare asciugare il dischetto e riutilizzarlo. La pelle lentamente si abituerà alle microfibre. A seconda del make-up utilizzato, i dischetti potrebbero scolorire. Tuttavia, questo non li rende meno efficaci. Lavare regolarmente i dischetti in lavatrice (60 °C). 100% poliestere.
- NL** Herbruikbare make-upremoverpads verwijderen zelfs waterdichte make-up met alleen warm water en zonder extra make-upremover. Wassen voor het eerste gebruik. **Gebruik:** 1. Doordrenk de pad met warm water. 2. Veeg de pad voorzichtig over je huid en ogen om make-up te verwijderen. 3. Was de pad na elk gebruik met water en zeep. 4. Laat de pad drogen en deze is weer klaar voor gebruik. De huid zal langzaam wennen aan de microvezels. Afhankelijk van de make-up die je gebruikt, kunnen de pads verkleuren. Dit heeft geen invloed op de werking van de pads. Was de pads regelmatig in de wasmachine (60 °C). 100% polyester.
- PT** Com os discos desmaquilhantes reutilizáveis, remova até maquilhagem à prova de água apenas com água morna, sem quaisquer produtos desmaquilhantes adicionais. Lavar antes a primeira utilização. **Modo de uso:** 1. Molhe o disco em água morna. 2. Passe suavemente o disco sobre a pele e os olhos para remover a maquilhagem. 3. Lave o disco com sabão e água após cada utilização. 4. Deixe o disco secar antes de voltar a utilizar. A pele vai progressivamente habituar-se às microfibras. Os discos podem ficar descolorados, em função da maquilhagem utilizada. A descoloração não torna os discos menos eficazes. Lave regularmente os discos na máquina de lavar (60 °C). 100% Poliéster.

GB Nail foils. **Preparation:** Clean natural nails thoroughly with acetone-free nail varnish remover and push back cuticle. For sensitive nails, we recommend applying a base coat before applying the nail foils. **Application:** 1. Select the appropriate nail size. In case of doubt, choose the smaller size or cut the nail foil to the correct size. 2. Carefully remove the nail foil from the protective film and apply centrally onto the nail. In doing so, ensure that the cuticle is not covered. Then press down hard on the nail foil from the centre along the edges. Any remaining nail should be folded downwards and, if necessary, roughly cut. 3. Any remaining excess should then be filed vertically and downwards along the nail edge using a nail file. 4. For the best possible durability, the nail foil should be sealed using a thin layer of top coat. The nail foils can be removed using an acetone-free nail varnish remover.

DE

Bei Unsicherheiten die kleinere Größe wählen oder Nagelfolie zurechtschneiden. 2. Nagelfolie vorsichtig von der Schutzfolie abziehen und mittig auf den Nagel ansetzen. Dabei beachten, dass die Nagelhaut nicht überdeckt wird. Die Nagelfolie anschließend von der Mitte aus entlang den Rändern festdrücken. Den überstehenden Teil nach unten falten und, wenn nötig, grob abschneiden. 3. Den restlichen Überschuss anschließend mit einer Nagelfeile entlang des Nagelrandes senkrecht nach unten abfeilen. 4. Für eine bestmögliche Haltbarkeit die Nagelfolie mit einer dünnen Schicht Top Coat versiegeln. Die Nagelfolien können mit acetonefreiem Nagellackentferner abgenommen werden.

Foils de uñas. **Preparación:** Limpia bien tus uñas naturales con quitaesmaltes sin acetona y empuja hacia atrás la cutícula. Para uñas sensibles, recomendamos aplicar una base antes de aplicar los foils. **Aplicación:** 1. Selecciona el tamaño de uña adecuado. En caso de duda, elige el tamaño más pequeño o corta el foil al tamaño correcto. 2. Retira con cuidado el film protector del foil y aplícalo en el centro de la uña. Al hacerlo, asegúrate de que la cutícula no esté cubierta. A continuación, presiona con fuerza el foil desde el centro de la uña a lo largo de los bordes. Cualquier parte que sobresalga debe doblarse hacia abajo y, si es necesario, cortarla. 3. Cualquier exceso debe ser limado verticalmente y hacia abajo a lo largo del borde de la uña usando una lima de uñas. 4. Para obtener la mejor duración posible, el foil debe sellarse con una capa fina top coat. Los foils se pueden retirar con un quitaesmaltes sin acetona.

FR

Foils ongles. **Préparation:** Nettoyez soigneusement vos ongles avec un détachant sans acétone, puis repoussez les cuticules. Pour les ongles sensibles, nous recommandons d'appliquer un base coat avant de poser les foils. **Mode d'emploi:** 1. Sélectionner un foil de taille adaptée. Dans le doute, choisissez la plus petite taille ou coupez le foil aux bonnes dimensions. 2. Décollez délicatement le foil de son film protecteur et posez-le sur l'ongle en le centrant. Veillez à ne pas recouvrir la cuticule. Appuyez ensuite fortement sur le foil en partant du centre vers les bords. Tout excédent de foil doit être rabattu vers le bas et, si besoin, coupé grossièrement. 3. Le foil restant doit ensuite être limé de haut en bas le long du bord de l'ongle. 4. Pour une tenue maximale, le foil doit être scellé à l'aide d'une fine couche de top coat. Les foils se retirent avec un dissolvant sans acétone.

Nail foils. **Προετοιμασία:** Καθαρίστε σχολαστικά τα φυσικά νύχια με προϊόν αφαίρεσης βερνικιού χωρίς ακετόνη και πιέστε προς τα κάτω τα υπονύχια. Για ευαίσθητα νύχια, συνιστούμε να εφαρμόζεται ένα στρώμα βάσης πριν από την εφαρμογή των nail foils. **Εφαρμογή:** 1. Επιλέξτε το κατάλληλο μέγεθος νυχιού. Σε περίπτωση αμφιβολίας, επιλέξτε το μικρότερο μέγεθος ή κόψτε το νύχι αλουμινόχαρτο στο σωστό μέγεθος. 2. Αφαιρέστε προσεκτικά το αλουμινόχαρτο από την προστατευτική μεμβράνη και εφαρμόστε κεντρικά στο νύχι. Με αυτόν τον τρόπο, βεβαιωθείτε ότι το υπονύχιο δεν καλύπτονται. Στη συνέχεια, πιέστε δυνατά το αλουμινόχαρτο από το κέντρο κατά μήκος των άκρων. Ότι έχει απομείνει θα πρέπει να διπλώνεται προς τα κάτω και, εάν είναι απαραίτητο, να κόβεται. 3. Ότι περισσεύει θα πρέπει στη συνέχεια να λιμάρεται κατακόρυφα και προς τα κάτω κατά μήκος της ακμής του νυχιού, χρησιμοποιώντας μια λίμα. 4. Για την καλύτερη δυνατή ανθεκτικότητα, το nail foil πρέπει να σφραγίζεται με ένα λεπτό στρώμα top coat. Τα nail foils μπορούν να αφαιρεθούν χρησιμοποιώντας ένα προϊόν αφαίρεσης βερνικιού νυχιών χωρίς ακετόνη.

Smalto Adesivo Unghie. **Preparazione:** Pulire accuratamente le unghie naturali con un solvente senza acetone e spingere indietro le cuticole. Per le unghie sensibili, consigliamo di applicare uno smalto base prima di applicare i fogli adesivi per unghie. **Modalità d'uso:** 1. Seleziona la misura appropriata degli adesivi. In caso di dubbio, scegli la misura più piccola o taglia un po' l'adesivo per avere la misura giusta. 2. Rimuovi con cautela l'adesivo dalla pellicola protettiva e applicalo sull'unghia. Nel farlo assicurati che la cuticola non sia coperta. Quindi premi con forza sull'adesivo dal centro lungo i bordi. Se l'adesivo eccede la misura dell'unghia piegalo verso il basso e taglialo. 3. Rifinisci con una lima lungo il bordo dell'unghia. 4. Per una maggiore durata, l'adesivo per unghie deve essere sigillato con un sottile strato di smalto top coat. Gli adesivi per unghie possono essere rimossi con un solvente senza acetone.

NL Nagelfolies. **Vorbereitung:** reinig de natuurlijke nagels grondig met een acetonvrije nagellakremover en duw de nagelriem naar achteren. Voor gevoelige nagels raden we aan om eerst een basecoat aan te brengen voordat je de nagelfolies aanbrengt. **Gebruik:** 1. Selecteer de juiste nagelmaat. Wanneer je twijfelt, kies de kleinere maat of knip de nagelfolie tot de juiste maat. 2. Verwijder voorzichtig de nagelfolie van de beschermfolie en breng deze centraal aan op de nagel. Zorg er hierbij voor dat de nagelriem niet bedekt is. Druk vervolgens hard op de nagelfolie vanuit het midden langs de randen. Eventuele resterend nagelfolie moet naar beneden worden gevouwen en, indien nodig, grof worden geknipt. 3. Resterend overtollig materiaal moet daarna verticaal en omlaag langs de nagelrand worden aangebracht met behulp van een nagelvijl. 4. Voor de best mogelijke duurzaamheid moet de nagelfolie worden afgesloten met een dunne laag topcoat. De nagelfolies kunnen worden verwijderd met een acetonvrije nagellakverwijderaar.

PT Nail foils. **Preparação:** Limpe bem as unhas naturais com um removedor de verniz sem acetona e empurre a cutícula para trás. Para unhas sensíveis, recomendamos aplicar um verniz base antes de aplicar as nail foils.

Aplicação: 1. Selecione o tamanho de unha adequado. Em caso de dúvida, escolha o tamanho mais pequeno ou corte a unha e as nail foils no tamanho correto. 2. Remova cuidadosamente a folha da unha da película protetora e aplique centralmente na unha. Ao fazê-lo, certifique-se de que a cutícula não está coberta. Em seguida, pressione com força a nail foil a partir do centro ao longo das extremidades. Qualquer unha restante deve ser dobrada para baixo e, se necessário, cortada grosseiramente. 3. Qualquer excesso restante deve ser limado verticalmente e para baixo ao longo da extremidade da unha, utilizando uma lima de unhas. 4. Para a melhor durabilidade possível, as nail foils devem ser seladas utilizando uma camada fina de verniz top coat. As nail foils podem ser removidas utilizando um removedor de verniz sem acetona.
